

Evaluating the Impact of CPD

www.curee.co.uk

What Works Well?

The holy grail of CPD provision is knowing that making a difference for teachers also makes one for pupils. CUREE has been developing a range of learning activities that generate formative and summative evidence for evaluating the impact of CPD and plan next steps in school development.

This workshop will explore models of effective CPD and tools to help you develop an awareness of the contribution of different kinds of evidence from teacher and student learners. It will also help you recognise where your school or cluster is on the journey to developing as an effective professional learning on a key aspect of environment.

The workshop will:

- Allow you to plan and evaluate effective CPD programmes for staff
- Evaluate your options for ensuring staff development leads to better learning experiences and outcomes for pupils.
- Help you plan further development.

This workshop is designed for:

- Primary and Secondary leaders with a responsibility for CPD especially those interested in developing their school or cluster as an effective professional learning environment.

By the end of the day you will:

Be confident about using a range of tools and skills that both develop your school or clusters' CPD and help you monitor its effectiveness by:

- Connecting the professional learning of adults with their aspirations for pupil learning
- Mobilising the power of **collaborative** adult learning as a tool for deep, rather than surface learning through engaging with evidence from classrooms
- Embedding Assessment for Learning processes into CPD activities
- Using classroom observation more effectively
- Ensuring your CPD encompasses each of the elements proven to be key to benefits to pupils

Be confident of quality:

- All CUREE programmes are rooted in the evidence about what really works in classrooms and how teachers learn.
- All of the workshops are by experienced facilitators
- We will use interactive activities and powerful tools to encourage deep learning.
- You will leave equipped to share your learning with colleagues in school.

Event date/time:
9th December 2011
09.30 – 15.30

Location:
MIC, London (near Euston Station)

Format:
Small group interactive workshop.
