

Curriculum Design for effective learning experiences – aligning CPD and curriculum development

www.curee.co.uk

What Works Well?

Whatever your view on subject or thematic approaches to the curriculum - and whatever the results of the review of the curriculum may bring - the international evidence base tells us one thing with great clarity. Carefully structured, subject rich curriculum development depends on effective CPD, and acts as a great springboard for it. This workshop explores powerful connections between CPD and curriculum development and ways of building capacity for effective curriculum development and design amongst all your staff.

This workshop will:

Help you to align professional and curriculum development and support colleagues in designing effective curricular experiences whatever curriculum structure you choose to take.

This workshop is designed for:

- Primary Heads, Deputies and phase leaders with curriculum design roles
- Secondary heads of department
- CPD leaders
- Leaders of teaching and learning.

You will learn:

- 3 approaches to managing curriculum change in highly effective schools
- 3 related distinctive features of the change process
- 5 strategic support strategies that also enable close, informed and formative monitoring of progress
- Ways of applying these features in your own school

Be confident of quality:

- All CUREE programmes are rooted in the evidence about what really works in classrooms and how teachers learn.
- All of the workshops are by experienced facilitators
- We will use interactive activities and powerful tools to encourage deep learning.
- You will leave equipped to share your learning with colleagues in school.

Event date/time:

9th November 2011
09.30- 15.30
